March 2026

- **Coursework:** Data Mining Applications, Data Management & Big Data, Enterprise Analytics, Database Management, Probability & Statistics, Data Visualization, Artificial Intelligence
- **Award:** Scholarship Award for Talented Student

HINDUSTAN COLLEGE OF ARTS AND SCIENCE

India

Bachelor of Science: Electronics Media | GPA: 3.6

May 2016

ACADEMIC PROJECTS

NORTHEASTERN UNIVERSITY | Oakland, CA

2024 - 2026

- **Founder Success Prediction (XN Project with VC Sponsor):** Developed a predictive model to assess startup founder success using LinkedIn and Crunchbase data (120 profiles, 17 features). Conducted EDA in Python, visualized key patterns, and built a dashboard with actionable VC recommendations. Delivered a sponsor-ready report highlighting high-impact traits like top-tier education and tech experience.
- **ESG Framework for AI Startups:** Designed a custom ESG scoring system for AI startups, aligned with EU AI Act, SASB, and NIST. Led stakeholder research with 10+ LPs and VC teams, created standardized due diligence tools, and piloted the framework across 8 AI startups. Delivered a training guide and CRM-integrated workflows to streamline ethical AI investment decisions.

WORK EXPERIENCE

FOUNDEVER (HYLAND ONBASE)

India

Cloud Analyst

Aug 2023 - Aug 2024

- Delivered end-to-end support for OnBase cloud-based workflows, resolving technical issues and improving data-driven operations.
